

DG Tankcleaner Plus

Concentrated, emulsifying and degreasing agent

Product description:

DG Tankcleaner is concentrated product, water-based, formulation based on petroleum solvents, white alcohol, emulsifying and degreasing agents and surfactant. Product is used for general removal of most oil and fats in cargo, storage tank and also grease from soiled surfaces. Product can be used on steel, plastic materials, epoxy and zinc coatings. Dispers mineral oils, crude oil, fuel oil, lubricant oil, etc.

How to use:

Use 10-25% solution of DG Tankcleaner with heated water (35-55°C). Pump out of remaining oil or fuel. Prewash tank with hot water (about 45°C-55°C) except crude oil which prewash with cold water.

For Direct Injection Method use undiluted Tankcleaner with rate of 0,2 litre per 100 liters of wash water. Cleaning time is 3-10 hours. When cleaning is completed drain off the cleaning solution. Rinse tank with fresh water until water runs clean from lower connection.

For Hand Cleaning use undiluted product directly on to frames walls, bulkheads, stringers using spray pump. After cleaning wash out with high pressure water systems.
